

Lull Telehandler Part

Lull Telehandler Part - Lull telehandlers have been supplying precision load placement ever since the year 1959. Whether the job entails positioning heavy steel, landing loads on scaffolding or transferring loads, using a Lull telehandler will help make the job go easier and faster. These units are available together with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull can supply 80 inches of boom travel for precision placement functionality. There are also lots of optional Lull attachments for their telehandlers in order to help complete whatever task.
