

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific components built for 20 exclusive models of forklifts and automated equipment. Your local Clark Supplier is your complete source for availability of all your parts needs supplied by Clark Totalift.

Clark features a exceptional Parts Supply team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the extremely economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This system was established to acknowledge the most successful method of production plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines modern product improvement and delivers superior customer support and service within the industry.
