

Meritor Part

Meritor Parts - Meritor is a leading international dealer which is proudly established on a 100 year custom of quality and service. They specialize in a broad range of integrated systems, modules and components to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By only employing future focused workers, Meritor strongly believes these top-caliber people will be able to quickly get used to to changing environments and demonstrate the commitment and performance needed to be able to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor offers their staff different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of drivelines, axles, suspension and braking systems utilized for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of all their international engineering employees.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all around the globe in 19 nations and in 5 different continents.

They have their supplier network which is specially located so as to support the development of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also included transactional Green Belts who apply Six Sigma tools to business methods and implement lean methods.
