

Spreader Bars for Forklift

Forklift Spreader Bar - ELME has been proudly operating since the year 1974, becoming the biggest independent spreader business all over the globe. They are a dedicated producer of spreaders meant for many several applications like the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of utilizing all the newest CAD systems and FEM tools. The ELME business currently has over 125 personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the world.

The product range of ELME comprise many spreaders for several container and trailer handling operations. A few of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes plus a wide array of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made over 1150 spreaders by making use of high quality parts to be able to ensure reliability and top standards while offering competitive prices. Major features of ELME comprise design simplicity, market response and innovative modular spreader concept.
